Click to expand... if you're not connected to the net, you're not going to have a portable computer to use in the first place...what use is a portable computer if you can't use it on a net connection??? don't think so..you can use a cable to connect your computer to an external modem which can then connect to the internet....that's what most people have been doing for the last 20 years...i haven't seen any portable computers out there in the last 15 years that don't connect to the internet... if you're not connected to the net, you're not going to have a portable computer to use in the first place...what use is a portable computer if you can't use it on a net connection??? don't think so..you can use a cable to connect your computer to an external modem which can then connect to the internet....that's what most people have been doing for the last 20 years...i haven't seen any portable computers out there in the last 15 years that don't connect to the internet... Click to expand... Agree but I am saying that a network cable isn't available where I live. You could buy one but it still wouldn't help me in my situation as I can't read the network-cable owners manual and to be honest I don't want to spend money on something that goes wrong. Also, the external modems I found here cost almost as much as the whole PC would cost. There might be another way but I don't know how

-Transfer music, video and audiobooks from your computer to iPod/iPhone, and vice versa.-Quickly copy music and videos from iPod/iPhone to your computer.-Repair broken iPod/iPhone songs and albums in your database.-Integrates support for tags and artwork. Software and game reviews: [ÄMEngineRödaKlumpIphone5](#) [ÄMEngineRödaKlumpIphone5](#) [ÄMEngineRödaKlumpIphone5](#) : This is a crack tool for the iPhone 5. The iPhone 5 is an important hardware advance, because it is much better than the previous models. The old models used the up and down keys to navigate through the menu and the only way to open it is by touching the home button. Now, the iPhone 5 has a keypad. This means you can choose multiple apps and you can also copy and paste. This really makes a difference, because you are no longer required to use the mouse. Of course, the software needs to be updated to use the iPhone 5 screen and allow navigation with the real iPhone 5. [ÄMEngineRödaKlumpiPhone5 + iPod](#) [ÄMEngineRödaKlumpiPhone5 + iPod](#) [ÄMEngineRödaKlumpiPhone5 + iPod](#) : You can also control the iPod Touch 5 with an iPhone. This means you can use your iPhone to control the iPod touch 5 and not have to buy a iPhone 5 for the same functionality.
