## ClipMagic Lite Crack + For PC

ClipMagic is a small and easy-to-use program created to offer simple methods to store all your clipboard activity and manage using custom categories. It can also work with all your web browsers to record the text and images that you've taken from the web. Structure the notes in separate groups The app is wrapped in a simple and intuitive layout, divided into a category tree, all the saved records and three other tabs, namely "Clip", "Comments" and "Web Browser". It also has an internal web browser to make Internet surfing easier. Use the built-in web browser to load your favorite websites For records taken from the web, you can later launch their original URLs in your web browser or in built-in one to load the page again. You can attach comments to your clippings, copy back to the clipboard and paste them with ease into another app, as well as send them via email to your friends and print them out. Automatically stores clipboard data The files are displayed in the list with their name or text content, size, date, the window they were copied from, type and URL. Plus, you can change the composition to uppercase and lowercase, as well as apply filters or rules, which are useful for sorting the items and capturing the screen. Look up notes and set the hotkeys The app lets you merge two or more notes into a single one and back up the database. In addition, you have the option to search and replace words with others and create custom categories to arrange your drafts. From the options, you can set the hotkeys for new and previous clip, customize the tool's appearance, choose a sound effect for capturing clips and run the utility at startup. Decent clipboard watcher and manager On an ending note, ClipMagic Lite is a useful application that comes is handy for everyone who wants to store all the captured information from the clipboard (images, text, URLs) and organize them into custom groups. Hotkeys and sound effects can be configured. We already have many great browsers on Windows, and many new browsers are getting added daily. So instead of using many different browsers and applications, why not just get a single app that can work across different browsers. AdGuard for Windows will automatically remove harmful and annoying ads and online tracking from your web browser and will let you access all your favorite websites and online applications without any hassle or restriction. Just like other ad-blocking browsers, AdGuard is
