Txt This is just a collection of notes from my first year, about my experiences, adventures, experiences, and thoughts about college. To keep me from going insane, my roommates made me do these little journals which I then typed up and posted. Crimson Osprey, Chapter 047.pdf Crimson Osprey, Chapter 047.pdf Since I saw Tim Burton's Batman in 1989 I have loved and hated his films. I've loved the Tim Burton style of Batman that embodies the normal human being with the dark side potential who is a hero. I used to have a really big poster of Tim Burton as Batman in my room as a tribute to the film. (Did that come out right?) (Shoot, my formatting is horrible.) Learning to Think in an Uncertain World.pdf The Care and Feeding of Your Ideas in the Writing Process RESEARCH: The Care and Feeding of Your Ideas in the Writing Process The aim of the research was to develop understanding of how students can learn to consider the nature of uncertainty in their writing. Research involved a within-subjects single group quasi-experimental design in a university tutorial setting. In this study, four tutorial groups of second-year English students were given the same essay task (as part of a tutorial) and were taught different approaches to thinking about the nature of uncertainty in their writing. The groups were given a task on either (a) the nature of science or (b) the nature of evidence. The results show that participants in the groups with a topic taught on the nature of science understood the nature of uncertainty through an underlying scientific language with the means to find and explain why events occur or are not as predicted. In contrast, participants in the group taught on the nature of evidence did not acknowledge that science was relevant to their argument and instead relied on rhetorical devices and personal experience to account for uncertainty.
